My New Creation With html

Agenda

1.problem statement
2.project overview
3. End user
4.Tools and technologies
5.portfolio design and layout
6.Featured and functionality
7.Result and screenshots
8.Conclusion
9.Github link

Problem statement

- Aportfolio biodatawebsitehelps present personal, educational,andprofessional details in a structured and professional way.
- Biodataor resume is not enough to demonstrate an individual's technical skills and achievements

Project overview

- This project isa portfoliobiodatawebsite developed using Html and Css
- It highlights the user’s personal details, education,skill,and project in a well organisedlayout
- That can be shared with employees

End users

Students/fresh graduates –to showcase there biodataand projects

Recruiters/employees –to easily review a candidate’s profile and technical skills

Tools and technologies

Html –websitestructure

Css-styling andlayoutdesign

Github-version control and hosting

Portfolio design and layout

1. *Visual Identity*: Reflects personal brand and style.
2. *Clear Navigation*: Easy to explore and understand.
3. *Showcase Best Work*: Highlight strongest projects.
4. *Responsiveness*: Adapts to different devices.

Features and functionality

Attractiveandprofessionallayout

Light weight and fast loading

Simpleto updateand costamise

Result and screenshot

Afullyfunctionalportfoliobiodatawebsite that displays personal

Conclusion

Theportfolio biodatawebsite successfully provided a modern alternative to traditional resume.

It helps individual showcase there biodataand technical skills online in a professional and interactive way

This project demonstrate practical application of Html and Cssin

real-world portfolio development
